Students look at the first shape and think about how it has changed to become the second one. This science resource is a great starter activity to introduce the topic of forces and magnets to your students. There is a variety of questions for students to answer. They read through the text and answer the accompanying questions. Students read through the information and facts about earthquakes and answer the accompanying study questions. Children are asked to think of ways to stay safe in the sun and design a poster to remind people to protect their skin when going out in the sun. This comprehension can be used when teaching children about the topic of light. The soft parts of our body are called muscles and the hard, stiff parts of our body are called bones. This year 3 science assessment paper can be used to test your child's knowledge of the science unit - Animals, including humans. This handy colouring sheet is great for children to practise their colouring and fine motor skills, as well as giving them something lovely to take home or display in the classroom. Children will love this fun word search all about the skeleton! Word searches are a great activity to improve vocabulary, memory, and spelling. Our great resources will help your child in these areas, especially times tables and spellings. WORKSHEET PLANS FROM £3.20/MONTH This word search includes vocabulary words that are associated with the topic - Year 3 Plants. Did you know that plants are divided into two groups - flowering plants and non-flowering plants. Children will love this fun word search all about the digestive system! Word searches are a great activity to improve vocabulary, memory, and spelling. Students read through the article and answer the questions. Children read the informative text on the life cycle of a flowering plant and answer the multiple-choice questions. A fun activity that can be used when teaching students about the topic - light. They then draw the shape that best completes each analogy. To make it more interesting you could see how many words they can find in a given time! This handy, colourful set of flashcards is a fantastic resource to help teach children the main vocabulary for the topic - Rocks. Students read through the information and facts about forest fires and answer the accompanying study questions. Vocabulary words include: bright, dim, day, night, bulb, torch, reflect, shadow, transparent, opaque, sun, moon, light, dark, candle, and lamp. Students read through the information and facts about droughts and answer the accompanying study questions. You'll also find guides for parents on the topics your child is learning, so you can explain it to them, plus science experiments and topic-focused activity packs for you to explore if you have time to spare. For more information, we'd recommend you read Year 3 English: what your child learns. Don't forget! We have a whole section of the site about Year 3 English where you'll find even more articles, games, worksheets and activities. This activity is all about muscles and bones. Login or Register to add to your saved resources. Work through the worksheets below in order or pick worksheets that match topics your child is currently covering at school. Students are asked to draw the next two shapes in the pattern. They will help children recognise key words for this topic and improve their vocabulary and spelling. This science worksheet is all about different types of plants. This useful colouring page is great for children to practise their colouring and fine motor skills, as well as giving them something lovely to take home. This useful colouring page is great for children to practise their colouring and fine motor skills, as well as giving them something lovely to take home or display in the classroom. Children learn some different ways to stay safe whilst enjoying the sunshine. There is also a Year 3 English Learning Journey checklist to help you keep track. Alternatively, check out your child's dashboard on the home page. Students are asked to write the next two shapes in the pattern. Children think of 9 things to take to the beach with them. This year 3 science assessment paper can be used to test your child's knowledge of the science unit - Forces and magnets. This assessment paper can be used to test your child's knowledge of the science unit - Plants. Students are asked to label the diagram to show the different parts of the flowering plant. The sun is our main source of light. Students read through the information and answer the questions. Students learn about the different ways seeds can be transported and answer the multiple-choice questions. This year 3 science assessment paper can be used to test your child's knowledge of the science unit - Light. This worksheet can be used to reinforce learning when teaching the topic of light. This science resource includes some interesting facts about seed dispersal. Score: 0% Rank: Correct Answer: Start Quiz >> Year 3 is the first year your child will work on Key Stage 2. Help your child's imagination soar - and then recount their adventures on paper! The Year 3 English booster pack will help them revise punctuation, persuasive text and more, but there are plenty of encounters with witches and conversations with elephants in the garden to keep them interested along the way. Full stops, commas, semi colons, apostrophes... Whatever aspect of punctuation your child is grappling with, we've come up with a bumper pack of 60 activities to help them practise, as well as a parent's refresher guide to each punctuation mark and how it's used. Each card has a real image to illustrate the word. This year 3 science assessment paper can be used to test your child's knowledge of the science unit - Rocks. Children answer various questions about light and shadows. Light is a type of energy and we need it to see things. For maths, the 3, 4 and 8 times tables will be important. Children are asked to sort the different light sources into 'Natural light' and 'Artificial light'. Use the word bank to help you. Students read through the information and facts about tsunamis and answer the accompanying study questions. This activity is all about the digestive system. If all the seeds of a plant fell to the ground under the parent plant, many would die because of lack of space or air, water, sunlight, and minerals. Children write 'yes' or 'no' under each picture. Children will love this fun word search all about soil! Word searches are a great activity to improve vocabulary, memory, and spelling. Children will love this fun word search all about fabulous fossils! This fun fossils activity asks students to draw a line to match the vocabulary word to the definition. Students find all of the vocabulary words associated with sun safety. Use these cards to discuss the topic of rocks with your children, display them around the classroom, or use them as a fun matching activity! This colourful set of flashcards is great for teaching pupils the main vocabulary for the topic - Light. See if your students can find all of the words hidden in the grid. This fun light activity asks students to draw a line to match the vocabulary word to the definition. Students read through the text and then answer the accompanying multiple-choice questions. Each card has an image to illustrate the word. Your child will begin to focus less on phonics and continue to work on the spelling patterns they have begun in previous years. Which of the following objects can light pass through? Word searches are a great activity to improve vocabulary, memory, and spelling. Children learn about when magnets attract and repel each other. It can also be used for a display when teaching the topic of the Romans. You'll find this week's worksheet from the Year 3 English programme (as well as the Year 3 Maths programme). Students read through the information and facts about sandstorms and answer the accompanying study questions. They draw and label a picture of them in the boxes and include things that help them stay safe in the sun. Vocabulary words include rock, soil, chalk, sand, sedimentary, granite, marble, fossil, moss, sandy soil, loamy soil, peat soil, slate, clay, rough, and smooth. Students solve the Sudoku puzzle by using logical reasoning and critical thinking skills. Children will love this fun word search all about rocks! Word searches are a great activity to improve vocabulary, memory, and spelling. Free Students solve the Sudoku puzzle by using logical reasoning and critical thinking skills. They complete each grid by writing the numbers 1, 2, 3, and 4 in each row, column, and block once and only once. Word searches are a great activity to improve vocabulary, memory, and spelling. Students learn some interesting facts about body fossils and trace fossils and answer the multiple-choice questions. Fossils are the remains or traces of animals and plants that lived a long time ago! Many fossils are buried under layers of mud and sedimentary rock. This fun word search includes words that are associated with the Romans and is great to help support studies on the Romans.
